

Dialogue that links memories
A robot that links hearts

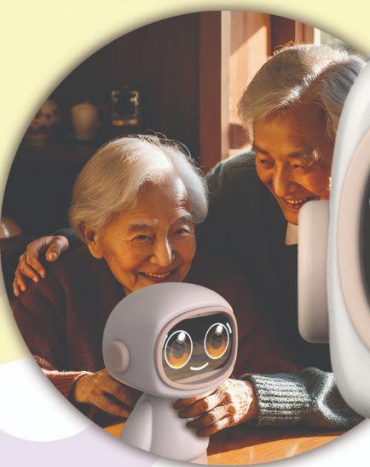

ADRA

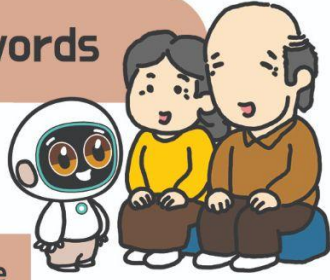

ADRA is?

An ai-powered
elderly care companion
that walks alongside
and supports our seniors
a care robot. With heart.

Three Core Keywords

User Centered Conversational Experience

- Personalized dialogues delivered in the voice of a child or caregiver
- Proactive communication based on learned daily routines

User Centered Adaptive Learning

- Cognitive ability analysis with tiered conversation quality based on results
- Smarter conversations through continuous user data collection

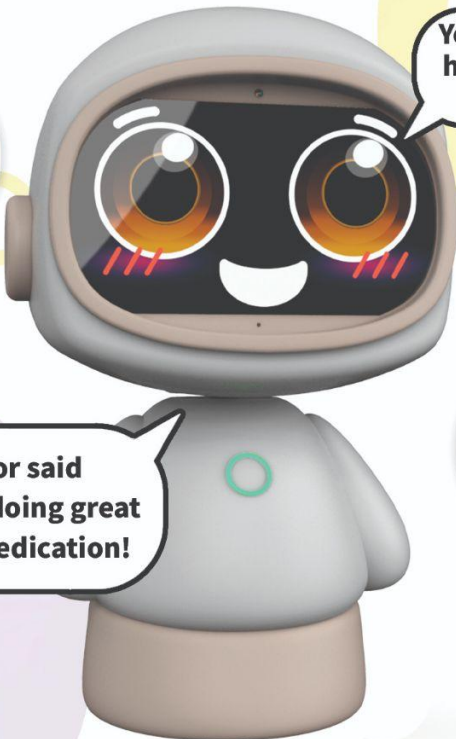

Always-on Smart Care

- Real-time health monitoring and risk detection, day and night
- A constant companion providing emotional support and daily assistance

You went to the hospital today, right?

The doctor said you've been doing great with your medication!

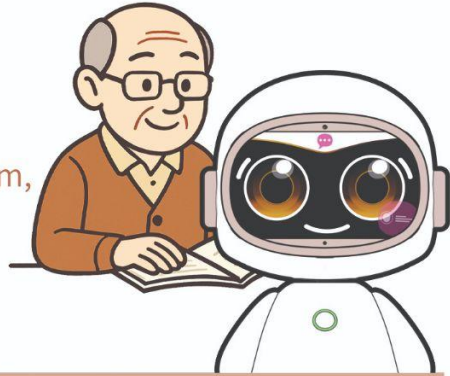

Service 1 Call & Message Notifications

When a message arrives from a child or caregiver,

ADRA tells you who sent it and **reads it aloud** in their warm, familiar voice.

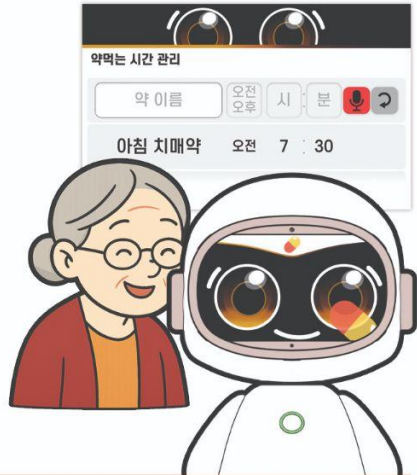

Service 2 Medication Reminders

With ADRA, taking medicine feels easier.

Simply set the name and time in advance

ADRA will remind you right on time.

“Grandma! It’s time for your ○○ medicine~!”

Service 3 Emergency Alerts

In an emergency, ADRA responds instantly. A siren is triggered to alert nearby people, and your loved ones are notified right away.

“Son! Help me!”

Even in sudden moments, ADRA is there for you.

Service 4 Journaling, Games & Memory Tests

Start small habits that protect memory with ADRA.

Write a daily journal, play simple brain games, and take self-check memory tests with ease.

ADRA helps keep your mind active, every day.

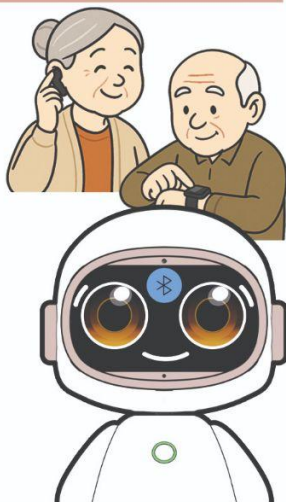

Service 5 Hearing Support & Wearable Integration

-Korea's First
Coming Soon.

Hear better, live healthier.
When connected to Bluetooth earbuds, ADRA helps voices sound clearer.

With a wearable device, you can also track heart rate, steps, and more.

Smart care, right by your side.

Service 6 Autobiography Builder

-Korea's First
Coming Soon.

Your daily journals.
Your conversations with ADRA.

Each memory becomes part of your one-and-only life story.

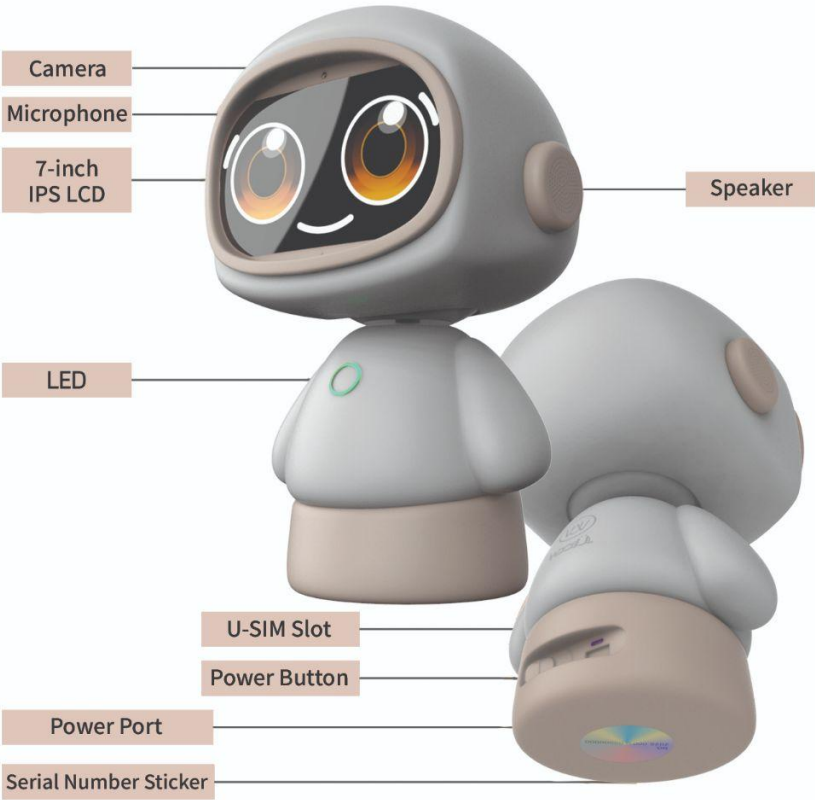

Every week and every month, ADRA gently asks and carefully collects your stories.
